Nabataean Ladies Cooperative Society

Traditional silversmith inspired by the Nabataean history

Silver jewelry is traditionally a symbol of independence of Bedouin women. The production of silverworks by the association has supported 700 local women. Every narrative design is inspired by the Nabatean and Arab history, and each design is precisely shaped in silver. The beautifully produced accessories will remind tourists of their visit to Petra.

Nabi Haroun Agricultural Cooperative Association

Precious gift from local garden

The association produces handmade soap from natural plants that are grown in the home garden. The ingredients includes famous plants in the Petra region, such as aloe vera, wormwood, chamomile, turmeric, saffron, and sidr. Their products are gentle on the skin. In addition, they also produce beautiful accessories made of resin.

Petra Gate Cooperative Tourism Society

The history of Petra told in pottery

The association is mainly involved in pottery production, which is one of the oldest crafts throughout the civilizations in the Petra region. The pottery is made of clay and shaped into a variety of sophisticated designs, including utensils used by the Nabataeans. Their products feature historical heritage, including some monuments in the Petra archaeological park.

Silver Hands Women Society

Silver jewelry in pursuit of realism and sustainability

Local ladies with creative ideas produce silver accessories based on inspiration from monuments in the Petra archaeological site. Their products have realistic designs based on drawings sketched in the site. Seeking sustainability and safety, their originality is also evident in the manufacturing methods, including the use of lemon acid for polishing instead of dangerous chemicals.
